Khalid Elharrif **M.D.**

Nephrologist

About **Provider**

Dr. Elharrif is a nephrologist at the Kidney Care Center. He finished medical school in Egypt and completed his residency at UCLA - Kern and his nephrology fellowship at the University of Texas. He is a member of the Royal College of Physician of the United Kingdom. He combines an Egyptian background and UK knowledge with medical expertise he acquired through years of training in Texas, California, and Egypt. Dr. Elharrif has numerous publications and presentations in the field of nephrology. He was investigating the role of (pro)renin receptor of the kidney in diabetes and heart failure conditions. He strives to provide the highest level of patient care and pride himself in treating various renal disease ranging from acute illness to complex chronic condition such as diabetes, hypertension, renal failure, and kidney stone. Dr. Elharrif is trained to care for adults of all ages for various medical conditions. His goal is to focus on evidence-based measures and best practices while taking care of patients.
