Tisha Tan M.D.

Board Certified Nephrologist

About Provider

Dr. Tan is board-certified in both Internal Medicine and Nephrology. Her commitment to delivering the highest quality of care to her patients came from her personal experience with her father, who had chronic kidney disease. This experience had driven her passion for Nephrology and compassion for her patients. She believes that quality care starts with effective listening to patients' problems and concerns, addressing them systematically, giving them a clear review of their diagnosis, differential diagnoses, treatment options, and treatment plan.

Dr. Tan greatly values patient education as one of the most important tools during the care process. Patient awareness and involvement in their self-care help them promote and sustain better health.
